

JACKPOT™

Kentucky Bluegrass

Jackpot Kentucky bluegrass competes with BMVG and Mid-Atlantic type varieties but it is newer and shows better turf qualities. Jackpot is a cost saving variety with pleasing medium-fine leafed, medium-green color and with superior seedling vigor.

Jackpot also exhibits excellent wear ability under traffic stress. Jackpot was bred for tolerance against many strains of rust and powdery mildew. It performs on heavy soils with moderate fertility. Jackpot offers excellent turf quality at a lower price, and is a good fit to blend with elite Jacklin varieties for sod and landscape.

Key features

Quick to Germinate & Establish

Excellent Seedling Vigor

Disease Resistance

Great Spring Green-up

Technical Information

Applications

Jackpot is quick to germinate and its excellent seeding vigor allows it to establish quickly making this Kentucky Bluegrass a superior pick for almost any application, especially golf course tees, fairways and roughs. Its early spring green up highlights Jackpot's aesthetic appeal and is strengthened by great disease resistance against common diseases such as Rust and Powdery Mildew. Whether on the golf course, sports field or park, Jackpot Kentucky Bluegrass is sure to impress.

Specifications

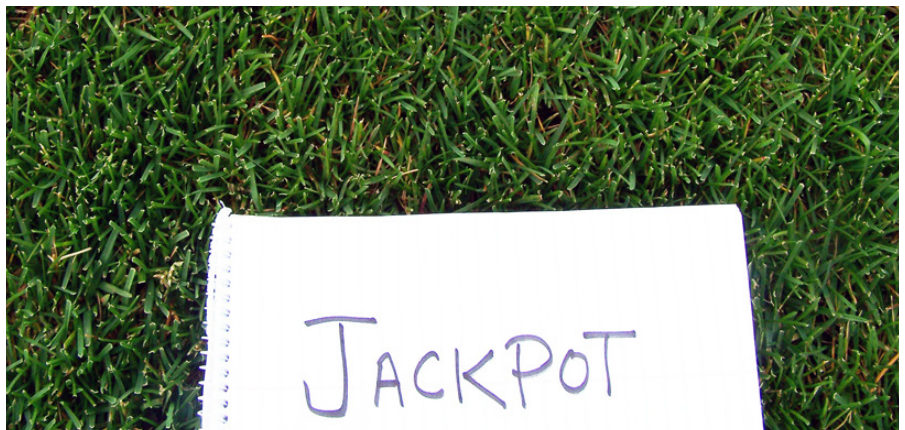

Seeding and establishment may be done in spring or fall, but be wary of summer or winter annuals. For better early weed control, consider an application of Mesotrione in the seeding process. Plant seeds to a depth of no more than 0.25-0.50" below the soil surface to ensure good seed to soil contact. Thatch layers will only slow or impede germination success. After spreading seed, keep seedbed moist throughout germination, with extra care during the early stages to prevent seed from drying out after initial seed imbibition. Germination should begin within 10 to 21 days and be complete within 35 days. Remember, the full turfgrass establishment process may take 6 months to a year.

Maintenance

Seeding Rate:	2-3lbs/M*
Mowing (Recommendation)	2-3"
Mowing (Down to)	0.500"

*M=1,000 square feet
